International Graduate Financial Information 2021-2022

The Office of International Services (OIS) has prepared this document to inform you of the financial requirement in order to issue your student visa document (Form I-20 or DS-2019) as an international graduate student. Once you have been admitted to your program and accepted your offer of admission, your department will notify OIS. From there, you will be contacted directly from OIS via email and will need to provide financial documentation via the My OIS online portal. More information on this process will be provided to you *after* we have received your information from your school. This document is simply to prepare you for what you will need to provide to OIS so that your visa document is issued smoothly and timely. Please read the Financial Documentation Considerations on Page 2 to understand what is considered acceptable financial documentation. You do not need to submit financial documentation to your school. **Please wait to send financial documentation to OIS until you have been contacted directly from OIS.**

The estimates below are based on actual costs for Academic Year 2020-21. For immigration purposes, providing evidence of financial support to meet the costs outlined below is sufficient; however, please note that **actual costs will likely increase for the 2021-2022 academic year**. Students should add **\$5,376 per year for each dependent** family member (spouse and/or unmarried children under the age of 21) who will accompany them to the U.S. The dependent estimate does not include health insurance.

Financial Documentation Considerations:

- Review the cost estimates (above) and the estimated length of the degree program to which you are applying. *You will need to provide financial documentation of immediately available liquid assets only for the first 12 months of study.*
 - Immediately available liquid assets would be considered a bank statement or letter, stocks/bonds available for immediate withdrawal without penalty.
 - Salary information, retirement accounts, real estate or other non-liquid assets such as automobiles, jewelry, or other personal property cannot be used to demonstrate financial support for the first 12 months but may be provided as evidence of support for subsequent years of study.
- All proof of financial support must be original documents in English. We are able to convert your home country's currency into USD. Currency used must be indicated on document.
- Documentation must be issued within the last six months, and the date the document was issued must be clearly indicated.
- Be sure to include additional funds for any dependents who will accompany you to the U.S. (\$5,376 per dependent. Amount determined by 120% of the Health & Human Services Poverty amount (<https://aspe.hhs.gov/poverty-guidelines>)).
- Students may provide proof of financial support from more than one sponsor. You will be able to submit multiple sources of financial documentation to OIS if needed. Each sponsor will need to submit an Attestation of Financial Support form via My OIS. Each sponsor will need to verify they are sponsoring your education and the amount they plan to provide. The sponsor must physically sign this form, typing in a signature will not be acceptable.
- You do not need to submit financial documentation to your school. Please wait to send financial documentation to OIS until you have been contacted directly from OIS via email. You will be able to upload original copies of financial documentation through your My OIS account (my.ois.pitt.edu) after we have received your information from your school.
- Evidence of financial support must also be shown to the U.S. Consulate when applying for a visa. OIS accepts scanned copies of financial documentation, but the Consulate will need to see the original version. Please make sure to keep the original copy of what you have scanned and uploaded to OIS for your visa interview.
- Questions concerning financial requirements can be emailed to oisnew@pitt.edu.

School of Medicine First Professional Program

Cost of Attendance Figures for 2021-2022

International students accepted for admission to the School of Medicine will be required to deposit into escrow with the University of Pittsburgh's Student Payment Center a sum equal to the total cost of education for their first two years of medical school with documented support of the ability to pay their final two years. This deposit is a requirement of the School of Medicine.

The current escrow amount for two years of medical education at the University of Pittsburgh School of Medicine is approximately \$172,758 USD. Any scholarships awarded to the applicant from the University of Pittsburgh School of Medicine will be subtracted from the total amount required in escrow for the two years. No interest will be paid to the student on the funds that are in escrow. **The Office of International Services will issue the Form I-20 only after the deposit of \$172,758 has been made to the [Student Payment Center](#).**
